

AB-NN265-3

GRP170-1 Antibody

Pan-specific rabbit polyclonal antibody
for FIH (HIF1; HIF1AN)

Target Protein

Protein Name Long:	Hypoxia up-regulated protein 1
Protein Alias:	ORP150; HSP12A; Orp150; Glucose-regulated 170; 150kDa oxygen regulated
UniProt ID:	Q9Y4L1

Immunogen

Antibody Immunogen Source:	Synthetic peptide patterned after human GRP170
Antibody Immunogen Sequence:	MELRLRERLAGLFNEQRKGC
Antibody Immunogen Description:	Corresponds to amino acid residues M275 to G293.
Antibody Target Type:	Pan-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipеп peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	0.9 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Rhesus macaque Dog Rat Mouse Chicken Zebra fish

This product is for in vitro research use only and is not intended for use in humans or animals.
