

AB-NN456

TARP3-Pan (CACNG3) Antibody

Pan-specific rabbit polyclonal antibody
for CACNG3 (TARP3)

Target Protein

Protein Name Long:	Voltage-dependent calcium channel gamma-3 subunit
Protein Alias:	CCG3; Neuronal voltage-gated calcium channel gamma-3 subunit
UniProt ID:	O60359
Protein Molecular Mass:	35,549 Da (315 AA)

Immunogen

Antibody Immunogen Source:	Synthetic peptide patterned after human TARP3
Antibody Immunogen Sequence:	CQFHNSTPKEFKESLHNNP
Antibody Immunogen Description:	Corresponds to amino acid residues Q290 to P307.
Antibody Target Type:	Pan-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipепptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	1.0 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Chimpanzee Rhesus macaque Dog Rat Mouse Platypus Chicken

This product is for in vitro research use only and is not intended for use in humans or animals.
