

AB-NN606-1

PCYT1A-PNT Antibody

Pan-specific rabbit polyclonal antibody
for PCYT1A (CTPCT; CCTA)

Address: 8755 Ash Street, Suite 1

Vancouver, British Columbia,

Canada V6P 6T3

Target Protein

Protein Name Long:	CTP: phosphocholine cytidyltransferase isoform A
Protein Alias:	CCT A; CCT-alpha; CCTA; Choline-phosphate cytidyltransferase A; CT; CT A; CTA; CTP:phosphocholine cytidyltransferase A; CTPCT; PCY1A; PCYT1; PCYT1A; phosphate cytidyltransferase 1, choline, alpha; Phosphorylcholine transferase A
UniProt ID:	P49585
Protein Molecular Mass:	41,731 Da (367 AA; P49585)

Immunogen

Antibody Immunogen Source:	Synthetic peptide patterned after human PCYT1A
Antibody Immunogen Sequence:	IEVDFSKPYVRVTMEEASC
Antibody Immunogen Description:	Corresponds to amino acid residues I51 to S68.
Antibody Target Type:	Pan-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multi-peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	1 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Dog Rat Mouse Chicken Frog

This product is for in vitro research use only and is not intended for use in humans or animals.
