

AB-PK858

Yes-pY222+pY223 Antibody

Phosphosite-specific polyclonal antibody for monitoring the phosphorylation of human protein-tyrosine kinase Yes

KINEXUS

Target Protein

Name Long:	Yamaguchi sarcoma proto-oncogene-encoded tyrosine kinase
Alias:	c-Yes; HsT441; p61-Yes; CCDS11824.1; ENSG00000176105
UniProt ID:	P07947
Sequence Predicted Mass (KDa):	60.801 (543 AA; P07947)
Observed SDS-PAGE Mass (KDa):	55-65

Immunogen

Antibody Immunogen Source:	Human Yes sequence peptide Cat. No.: PE-04AHY99
Antibody Immunogen Sequence:	NGG(pY)(pY)ITT(bA)C (bA) = beta-alanine
Location in Target:	Corresponds to amino acid residues N219 to T226; In the SH2 domain. One of the two major in vivo phosphorylation sites in Yes.
Peptide Type:	For phosphosite-specific recognition of target.
Target Phosphosite:	Tyr-222+Tyr-223

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Ig Isotype Clone Lot:	Immunoglobulin G
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipеп peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from each animal was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris. This antibody was also subject to negative purification over phosphotyrosine-agarose.
Antibody Amount:	25 µg
Antibody Concentration:	0.75 mg/ml
Lot Number:	141204
Storage Buffer:	Phosphate buffered saline (PBS) pH7.4, 0.05% Thimerasol
Storage Conditions and Stability:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.

Applications

Product Use:	Western blotting Antibody microarrays
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human, mouse, rat and many other mammals
Antibody Positive Controls:	Medium immunoreactivity with immunogen peptide on dot blots.

This product is for in vitro research use only and is not intended for use in humans or animals.
