

AB-PK877

EIF2AK4-pT667 Antibody

Phosphosite-specific rabbit polyclonal antibody for GCN2 (EIF2AK4). This phosphothreonine-site antibody is highly specific for phosphothreonine in the phosphosite.

Target Protein

Protein Name Long:	Eukaryotic translation initiation factor 2-alpha kinase 4
Protein Alias:	E2AK4; EC 2.7.11.1; GCN2-like protein; KIAA1338
UniProt ID:	Q9P2K8
Protein Molecular Mass:	186,838 Da (1,649 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human EIF2AK4
Antibody Immunogen Sequence:	CAGPG(pT)PPP
Antibody Immunogen Description:	Corresponds to amino acid residues A663 to P670. The effect of T667 phosphorylation is unknown. It appears to be the most commonly observed phosphosite in GCN2 from high throughput mass spectrometry studies (≥ 22 reports recorded in PhosphoSitePlus).
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipеп peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 μ g
Antibody Concentration:	1 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at $+4^{\circ}\text{C}$ for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Chimpanzee Rat Mouse

This product is for *in vitro* research use only and is not intended for use in humans or animals.
