

AB-PK887

MYT1-pS143 Antibody

Phosphosite-specific rabbit polyclonal antibody for MYT1 (PLPB1). This phosphoserine-site antibody also cross-reacts with a phosphothreonine substitution in the phosphosite.

Target Protein

Protein Name Long:	Membrane-associated tyrosine- and threonine-specific cdc2-inhibitory kinase
Protein Alias:	EC 2.7.11.1; Myt1 kinase; PMYT1
UniProt ID:	Q99640
Protein Molecular Mass:	54,521 Da (499 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human MYT1
Antibody Immunogen Sequence:	RSM(pS)PFR(β A)C
Antibody Immunogen Description:	Corresponds to amino acid residues R140 to R146. The effect of S143 phosphorylation is unknown. S143 is the most common phosphosite in MYT1 by mass spectrometry (≥ 23 reports recorded in PhosphoSitePlus).
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipеп peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 μ g
Antibody Concentration:	1 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at $+4^{\circ}\text{C}$ for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 μ g/ml for immunoblotting
Antibody Species Reactivity:	Human Rhesus Macaque Dog Rat Mouse

This product is for *in vitro* research use only and is not intended for use in humans or animals.
