

AB-PK895

JAK1-pT1107 Antibody

Phosphosite-specific rabbit polyclonal antibody for JAK1. This phosphothreonine-site antibody also cross-reacts with a phosphoserine substitution in the phosphosite.

Target Protein

Protein Name Long:	Janus protein-tyrosine kinase 1
Protein Alias:	EC 2.7.10.2; JAK1A; Janus kinase 1
UniProt ID:	P23458
Protein Molecular Mass:	133,277 Da (1154 AA; P23458)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human JAK1
Antibody Immunogen Sequence:	LVN(pT)LKE(βA)C
Antibody Immunogen Description:	Corresponds to amino acid residues L1104 to E1110. The effect of T1107 phosphorylation is unknown. Its phosphorylation has been observed in only one mass spectrometry study recorded in PhosphoSitePlus.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipеп peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	1 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Rhesus Macaque Dog Mouse Frog Zebra fish

This product is for *in vitro* research use only and is not intended for use in humans or animals.
