

AB-PK898

AXL-pY779 Antibody

Phosphosite-specific rabbit polyclonal antibody for Axl (UFO). This phosphotyrosine-site antibody is highly specific for phosphotyrosine.

Target Protein

Protein Name Long:	AXL oncogene-encoded protein-tyrosine kinase UFO
Protein Alias:	Adhesion-related kinase; ARK; AXL oncogene; AXL receptor tyrosine kinase; JTK11; Kinase AXL; UFO; CCDS12574.1; ENSG00000167601; Q15839
UniProt ID:	P30530
Protein Molecular Mass:	98,336 Da (894 AA; P30530); 97,377 Da (885 AA; P30530-2)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human AXL
Antibody Immunogen Sequence:	LDGL(pY)ALMSC
Antibody Immunogen Description:	Corresponds to amino acid residues D776 to S782. Y779 phosphorylation induces transcription. Phosphorylation is induced by GAS6, so this likely by autophosphorylation of the receptor-tyrosine kinase.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipепptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	0.2 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Dog Mouse

This product is for *in vitro* research use only and is not intended for use in humans or animals.
