

AB-PK919

AMPK α 2-pY436 Antibody

Phosphosite-specific rabbit polyclonal antibody for AMPK α 2 (PRKAA2)

Target Protein

Protein Name Long:	5'-AMP-activated protein kinase catalytic subunit alpha-2
Protein Alias:	AAPK2; AMPK alpha-2 chain; Kinase AMPK-alpha2; AMPK2; PRKAA; PRKAA2 ENSG00000162409
UniProt ID:	P54646
Protein Molecular Mass:	62,320 Da (552 AA; P54646)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human AMPK α 2
Antibody Immunogen Sequence:	VNA(pY)HLR(β A)C
Antibody Immunogen Description:	Corresponds to amino acid residues V433 to R439. Phosphorylation of Y436 is inhibitory for enzymatic activity. There is only one report of its phosphorylation by mass spectrometry in PhosphoSitePlus. AMPK α 2 is known to be phosphorylated at this site <i>in vitro</i> by Fyn.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipепptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 μ g
Antibody Concentration:	0.45 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Pig Rat Mouse

This product is for *in vitro* research use only and is not intended for use in humans or animals.
