

AB-PK924

CK1 δ -pT347 Antibody

Phosphosite-specific rabbit polyclonal antibody for CK1 δ (CSNK1D)

Target Protein

Protein Name Long:	Casein kinase 1-delta
Protein Alias:	CSNK1D; Casein kinase 1, delta; CK1-delta; CKId; EC 2.7.11.1; HCKID; KC1D; Kinase CK1-delta
UniProt ID:	P48730
Protein Molecular Mass:	47,330 Da (415 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human CK1d
Antibody Immunogen Sequence:	C(β A)TPL(pT)PTSH
Antibody Immunogen Description:	Corresponds to amino acid residues T344 to H351. T347 phosphorylation stimulates phosphotransferase activity. This is one of the major <i>in vivo</i> phosphorylation sites in CK1d (≥ 18 reports from high throughput mass spectrometry studies recorded in PhosphoSitePlus).
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipепptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 μ g
Antibody Concentration:	0.85 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at $+4^{\circ}\text{C}$ for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Chimpanzee Dog Mouse Frog Zebra fish

This product is for *in vitro* research use only and is not intended for use in humans or animals.
