

AB-PK928

EphA1-pY599 Antibody

Phosphosite-specific rabbit polyclonal antibody for EphA1

Target Protein

Protein Name Long:	Ephrin type-A receptor 1 protein-tyrosine kinase
Protein Alias:	EPA1; Eph; Eph receptor A1; Ephrin type-A receptor 1; EphT; EphT1; MGC163163; Tyrosine-protein kinase receptor Eph; CCDS5884.1; P21709; A1L3V3; ENSG00000146904
UniProt ID:	P21709
Protein Molecular Mass:	108,127 Da (976 AA; P21709); 52,618 Da (490 AA; P21709-2); 51,069 Da (474 AA; P21709-3)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human EphA1
Antibody Immunogen Sequence:	WLKP(pY)VDL(βA)C
Antibody Immunogen Description:	Corresponds to amino acid residues W595 to L602. The effect of Y599 phosphorylation is unclear. This is one of the major <i>in vivo</i> phosphorylation sites in EphA1 with 34 mass spectrometry reports recorded in PhosphoSitePlus.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipеп peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	0.8 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Rhesus Macaque Dog Mouse Platypus Chicken Zebra fish

This product is for *in vitro* research use only and is not intended for use in humans or animals.
