

AB-PN1029

IQGAP1-pS1443 Antibody

Phosphosite-specific rabbit polyclonal antibody for IQGAP1

Target Protein

Protein Name Long:	Ras GTPase-activating-like protein IQGAP1
Protein Alias:	IQ motif containing GTPase activating protein 1; IQGA1
UniProt ID:	P46940
Protein Molecular Mass:	189,252 Da (1,657 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human IQGAP1
Antibody Immunogen Sequence:	KSK(pS)VKED(bA)C
Antibody Immunogen Description:	Corresponds to amino acid residues K1440 to D1447.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipep peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	0.3 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human

This product is for *in vitro* research use only and is not intended for use in humans or animals.
