

AB-PN510

EML4-pY226 Antibody

Phosphosite-specific polyclonal antibody for monitoring the phosphorylation of human EML4

KINEXUS

Address: 8755 Ash Street, Suite 1
Vancouver, British Columbia,

Target Protein

Name Long:	Echinoderm microtubule-associated protein-like 4
Alias:	C2orf2; DKFZp686P18118; echinoderm microtubule associated protein like 4; Echinoderm microtubule-associated protein-like 4; ELP120; EMAL4; EMAP-4; EMAPL4; EML4; FLJ10942; FLJ32318; Restrictedly overexpressed proliferation-associated protein; Ropp 120; ROPP120
UniProt ID:	Q9HC35
Sequence Predicted Mass (KDa):	108.916 (981 AA; Q9HC35-1); 102.444 (923 AA; Q9HC35-2)
Observed SDS-PAGE Mass (KDa):	115-125

Immunogen

Antibody Immunogen Source:	Human EML4 sequence peptide Cat. No.: PE-04AHG99
Antibody Immunogen Sequence:	EGE(pY)IKM(bA)C (bA) = beta-alanine
Location in Target:	Corresponds to amino acid residues E223 to M229; In the N-terminal portion of EML4 near the HELP domain. This is the major in vivo phosphorylation site in EML4.
Peptide Type:	For phosphosite-specific recognition of target.
Target Phosphosite:	Tyr-226

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Ig Isotype Clone Lot:	Immunoglobulin G
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipепptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from each animal was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris. This antibody was also subject to negative purification over phosphotyrosine-agarose.
Antibody Amount:	25 µg
Antibody Concentration:	1 mg/ml
Lot Number:	150115
Storage Buffer:	Phosphate buffered saline (PBS) pH7.4, 0.05% Thimerazol
Storage Conditions and Stability:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.

Applications

Product Use:	Western blotting Antibody microarrays
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human, mouse, rat and many other mammals
Antibody Positive Controls:	Very strong immunoreactivity with immunogen peptide on dot blots.

This product is for in vitro research use only and is not intended for use in humans or animals.
