

AB-PN617

MAFG-pS124 Antibody

Phosphosite-specific rabbit polyclonal antibody for MAFG. This phosphoserine-site antibody is also cross-reactive for a glutamic acid substitution and weakly for phosphothreonine and serine substitutions in the phosphosite.

Target Protein

Protein Name Long:	Transcription factor MafG
Protein Alias:	V-maf musculoaponeurotic fibrosarcoma oncogene homologue G
UniProt ID:	O15525
Protein Molecular Mass:	17,832 Da (162 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human MAFG
Antibody Immunogen Sequence:	TVAR(pS)PVAC
Antibody Immunogen Description:	Corresponds to amino acid residues T120 to A127. S124 phosphorylation stabilizes protein. This is the major <i>in vivo</i> phosphorylation site in MAFG (≥ 10 reports from high throughput mass spectrometry studies recorded in PhosphoSitePlus).
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multi-peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 μ g
Antibody Concentration:	1 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at $+4^{\circ}\text{C}$ for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 μ g/ml for immunoblotting
Antibody Species Reactivity:	Human Rat Mouse Platypus Chicken Zebra fish

This product is for *in vitro* research use only and is not intended for use in humans or animals.
