

AB-PN684

YLPM1-pS561 Antibody

Phosphosite-specific rabbit polyclonal antibody for YLPM1 (ZAP3). This phosphoserine-site antibody is highly specific for phosphoserine in the phosphosite.

Target Protein

Protein Name Long:	YLP motif-containing protein 1
Protein Alias:	C14orf170; Nuclear protein ZAP3; YLP motif containing 1; ZAP; ZAP113
UniProt ID:	P49750
Protein Molecular Mass:	219,985 Da (1951 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human YLPM1
Antibody Immunogen Sequence:	SYLE(pS)PRGC
Antibody Immunogen Description:	Corresponds to amino acid residues S557 to G564. The effect of S561 phosphorylation is unclear. This has not been reported as an <i>in vivo</i> phosphorylation site based on high throughput mass spectrometry reports recorded in PhosphoSitePlus. YLPM1 is known to be phosphorylated at this site <i>in vitro</i> by ERK1 (MAPK3).
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipеп peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	1 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Chimpanzee Rhesus macaque Dog

This product is for *in vitro* research use only and is not intended for use in humans or animals.
