

AB-PN741

ASS1-pT174+pS180 Antibody

Phosphosite-specific rabbit polyclonal antibody for ASS1

Address: 8755 Ash Street, Suite 1

Vancouver, British Columbia,

Canada V6P 6T3

Target Protein

Protein Name Long:	Argininosuccinate synthase
Protein Alias:	Argininosuccinate synthetase; ASS; ASSY; Citrulline-aspartate ligase; Citrulline--aspartate ligase; CTLN1; EC 6.3.4.5
UniProt ID:	P00966
Protein Molecular Mass:	46,530 Da (412 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human ASS1
Antibody Immunogen Sequence:	IPV(pT)PKNPW(pS)MDE(βA)C
Antibody Immunogen Description:	Corresponds to amino acid residues I171 to E183. The effects of T174 and S180 phosphorylation are unclear. These are two of the minor <i>in vivo</i> phosphorylation sites in argininosuccinate synthase (≥9 and >8 reports, respectively, by mass spectrometry in PhosphoSitePlus). This human phosphosite is highly conserved in vertebrates and also found in yeast.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipеп peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	0.3 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Rhesus Macaque Dog Rat Mouse Platypus Chicken Frog Zebra fish

This product is for *in vitro* research use only and is not intended for use in humans or animals.
