

AB-PN783

VHL-pS111 Antibody

Phosphosite-specific rabbit polyclonal antibody for VHL. This phosphoserine-site antibody is highly specific for phosphoserine in the phosphosite.

Target Protein

Protein Name Long:	Von Hippel-Lindau disease tumor suppressor
Protein Alias:	Protein G7;pVHL
UniProt ID:	P40337
Protein Molecular Mass:	24,153 Da (213 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human VHL
Antibody Immunogen Sequence:	RIH(pS)YRG(βA)C
Antibody Immunogen Description:	Corresponds to amino acid residues R108 to G114. S111 phosphorylation induces interaction with Tip60 and p300. This is a minor site of <i>in vivo</i> phosphorylation of VHL based on ≥1 mass spectrometry reports recorded in PhosphoSitePlus. VHL is known to be phosphorylated at this site <i>in vitro</i> by Chk2.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipеп peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	1 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Rat Mouse

This product is for *in vitro* research use only and is not intended for use in humans or animals.
