

AB-PN810

BCKDHA-pS337 Antibody

Phosphosite-specific rabbit polyclonal antibody for BCKDHA

Target Protein

Protein Name Long:	2-oxoisovalerate dehydrogenase subunit alpha, mitochondrial
Protein Alias:	2-oxoisovalerate dehydrogenase subunit alpha, mitochondrial; BCKDE1A; EC 1.2.4.4; ODBA
UniProt ID:	P12694
Protein Molecular Mass:	50,471 Da (445 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human BCKDHA
Antibody Immunogen Sequence:	CGHH(pS)TSDD
Antibody Immunogen Description:	Corresponds to amino acid residues G334 to D341. The effect of S337 phosphorylation is unclear. This is the second major <i>in vivo</i> phosphorylation sites in BCKDHA (≥83 reports from high throughput mass spectrometry studies recorded in PhosphoSitePlus). BCKDHA is known to be phosphorylated at this site <i>in vitro</i> by BCKDK.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipеп peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	0.9 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Chimpanzee Rhesus macaque Dog Rat Mouse Platypus Zebra fish Fruit fly

This product is for *in vitro* research use only and is not intended for use in humans or animals.
