

AB-PN937

AP3B2-pS272 Antibody

Phosphosite-specific rabbit polyclonal antibody for AP3B2. This phosphoserine-site antibody also weakly cross-reacts with phosphotyrosine, phosphothreonine, threonine and glutamic acid

Target Protein

Protein Name Long:	AP-3 complex subunit beta-2
Protein Alias:	Beta3B-adaptin; Clathrin assembly protein complex 3 beta-2 large chain; Neuron-specific vesicle coat protein beta-NAP
UniProt ID:	Q13367
Protein Molecular Mass:	119,059 Da (1,082 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human AP3B2
Antibody Immunogen Sequence:	CAFYG(pS)EED
Antibody Immunogen Description:	Corresponds to amino acid residues A268 to D275. The effect of S272 phosphorylation is unclear. This is the major <i>in vivo</i> phosphorylation sites with ≥ 23 mass spectrometry reports recorded in PhosphoSitePlus.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipепptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 μ g
Antibody Concentration:	0.55 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Chimpanzee Rhesus macaque Rat Mouse Chicken Zebra fish

This product is for *in vitro* research use only and is not intended for use in humans or animals.
