

AB-PN942

CNTN1-pY742 Antibody

Phosphosite-specific rabbit polyclonal antibody for CNTN1. This phosphotyrosine-site antibody is highly specific for phosphotyrosine.

Target Protein

Protein Name Long:	Contactin-1
Protein Alias:	Glycoprotein gp135; Neural cell surface protein F3
UniProt ID:	Q12860
Protein Molecular Mass:	113,320 Da (1,018 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human CNTN1
Antibody Immunogen Sequence:	NNFG(pY)IVA(βA)C
Antibody Immunogen Description:	Corresponds to amino acid residues N738 to A745. The effect of Y742 phosphorylation is unclear. This is a minor site of <i>in vivo</i> phosphorylation in CNTN1 based on ≥1 mass spectrometry report recorded in PhosphoSitePlus.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipep peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	0.35 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Chimpanzee Rhesus macaque Dog Rat Mouse Chicken Zebra fish

This product is for *in vitro* research use only and is not intended for use in humans or animals.
