

AB-PP526

PTPRM-pY929 Antibody

Phosphosite-specific rabbit polyclonal antibody for PTPRM (PTPRL1). This phosphotyrosine-site antibody is highly specific for phosphotyrosine.

Target Protein

Protein Name Long:	Receptor-type tyrosine-protein phosphatase mu
Protein Alias:	EC 3.1.3.48; HR-PTPu; Protein-tyrosine phosphatase mu; PTPRL1; RPTPM; R-PTP-MU; RPTPU
UniProt ID:	P28827
Protein Molecular Mass:	163,633 Da (1,452 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human PTPRM
Antibody Immunogen Sequence:	KNR(pY)GNI(BA)C
Antibody Immunogen Description:	Corresponds to amino acid residues K926 to I932. The effect of Y929 phosphorylation is unclear. This is the major site of <i>in vivo</i> phosphorylation of PTPRM (≥ 75 reports from high throughput mass spectrometry studies recorded in PhosphoSitePlus). This human phosphosite is highly conserved in vertebrates and also found in the nematode worm.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipепptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 μ g
Antibody Concentration:	1 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at $+4^{\circ}\text{C}$ for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Chimpanzee Rat Mouse Fruit fly Nematode worm

This product is for *in vitro* research use only and is not intended for use in humans or animals.
