

AB-PP543

PPP1R12A-pY496 Antibody

Phosphosite-specific rabbit polyclonal antibody for PPP1R12A (MYPT1; MBS). This phosphotyrosine-site antibody is highly specific for phosphotyrosine.

Target Protein

Protein Name Long:	Protein phosphatase 1 regulatory subunit 12A
Protein Alias:	MBS; Myosin phosphatase-targeting subunit 1; MYPT1
UniProt ID:	O14974
Protein Molecular Mass:	115, 281 Da (1,030 AA)

Immunogen

Antibody Immunogen Source:	Synthetic phosphopeptide patterned after human PPP1R12A
Antibody Immunogen Sequence:	CGRLA(pY)VAP
Antibody Immunogen Description:	Corresponds to amino acid residues R493 to P499. The effect of MYPT1 Y496 phosphorylation is unclear. This is a major <i>in vivo</i> phosphorylation site in MYPT1 based on ≥439 mass spectrometry reports recorded in PhosphoSitePlus. PPP1R12A is known to be phosphorylated at this site <i>in vitro</i> by ILK.
Antibody Target Type:	Phosphosite-specific

Production

Antibody Host Species:	Rabbit
Antibody Type:	Polyclonal
Antibody Isotype:	IgG
Production Method:	The immunizing peptide was produced by solid phase synthesis on a multipеп peptide synthesizer and purified by reverse-phase hplc chromatography. Purity was assessed by analytical hplc and the amino acid sequence confirmed by mass spectrometry analysis. This peptide was coupled to KLH prior to immunization into rabbits. New Zealand White rabbits were subcutaneously injected with KLH-coupled immunizing peptide every 4 weeks for 4 months. The sera from these animals was applied onto an agarose column to which the immunogen peptide was thio-linked. Antibody was eluted from the column with 0.1 M glycine, pH 2.5. Subsequently, the antibody solution was neutralized to pH 7.0 with saturated Tris.
Amount:	25 µg
Antibody Concentration:	0.5 mg/ml
Storage Buffer:	Phosphate buffered saline pH 7.4, 0.05% Thimerasol
Storage Conditions:	For long term storage, keep frozen at -40°C or lower. Stock solution can be kept at +4°C for more than 3 months. Avoid repeated freeze-thaw cycles.
Storage Stability:	>2 years

Applications

Product Use:	Western blotting Antibody microarray
Antibody Dilution Recommended:	2 µg/ml for immunoblotting
Antibody Species Reactivity:	Human Chimpanzee Rhesus macaque Dog Rat Mouse Chicken Frog

This product is for *in vitro* research use only and is not intended for use in humans or animals.
