Applications

Product Use:	For assaying the phosphotransferase activity of MAP kinase-interacting serine/threonine-protein kinase 2 (MNK2, UniProt ID Q9HBH9). The KinSub1RHLSF peptide demonstrated medium phosphotransferase activity with PKCg, and exhibited medium specificity when assayed with over 200 other protein kinases. A listing of other kinases that show appreciable phosphotransferase activity towards this peptide are listed in Table 1.
