### Applications

<b>Product Use:</b>	For assaying the phosphotransferase activity of Interleukin-1 receptor-associated kinase-like 2 (IRAK2, UniProt ID O43187). The KinSub1RRKSL peptide demonstrated high phosphotransferase activity with CHK2, and exhibited moderate specificity when assayed with over 200 other protein kinases. A listing of other kinases that show appreciable phosphotransferase activity towards this peptide are listed in Table 1.
