## Applications

Product Use:
For assaying the phosphotransferase activity of Ribosomal protein S6 kinase beta-1; Ribosomal protein S6 kinase 1 (p70S6K, UniProt ID P23443). The KinSub2RRKSF peptide demonstrated medium phosphotransferase activity with TXK, and exhibited low specificity when assayed with over 200 other protein kinases. A listing of other kinases that show appreciable phosphotransferase activity towards this peptide are listed in Table 1.

This product is for in vitro research use only and is not intended for use in humans or animals.
